Cloud Commerce Solutions for the Contracting Industry

Use the Right Tools for Your Business

With fierce competition and rising labor and materials cost, it is more critical than ever in the construction industry that you can depend on efficient and cost effective systems to run your business. Staying organized and being able to quickly locate a construction estimate or a building plan is crucial when under extreme pressure to complete a project on time and within budget. Company associates will be able to share knowledge and maximize productivity across the organization with any one of the products available through Cloud Commerce. No longer incur the expense of printing and mailing design proposals, construction estimates or invoices, all can be delivered with just the touch of a button. Because the majority of the work in the field of construction is done on site and not in the corporate office, having immediately accessible to your superintendant or foreman is essential. Cloud Commerce understands and offers one of the best quality PBX hosted phone systems on the market.

Cloud Commerce solutions work anywhere

Due to the nature of the industry, there will always be multiple construction projects at various locations in progress, so it is essential to have the information you need anywhere and at anytime. With just a broadband internet connection and web browser you will have access to your information 24x7. Cloud Commerce offers a full suite of business solutions that free you from the worries of managing your technology infrastructure and lets you focus on your company. But most importantly, we will reduce your technology costs significantly. Our portfolio of On-Demand solutions offer Voice, E-Mail, Document Management, CRM, Project Management, Accounting, Conferencing; everything your business needs to be successful.
